

Wraparound action items:**1. Breakdown of # cases referred by DCFS, Probation, and DMH (see slide 7).**

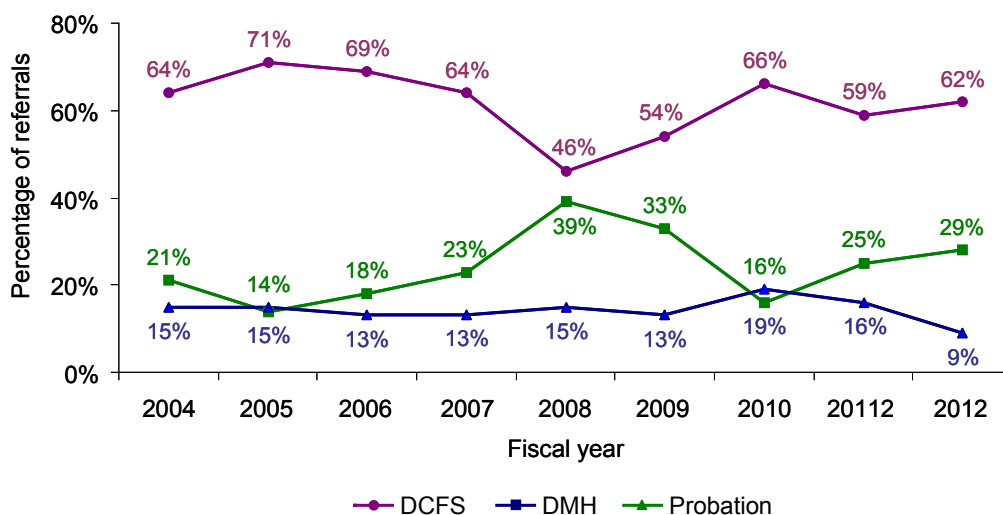

For the Wraparound cases in FY 2011-2012, Probation referred a total of 30 children. The following table illustrates the number of monthly enrollments in Tier I per Department for FY 2011-2012 .

**Monthly Enrollments by Referring Department—Tier I
FY 2011-2012**

Month	Referring Department			Total
	DCFS	DMH	Probation	
July 2011	60	42	14	116
August	46	30	11	87
September	38	43	5	86
October	37	8	0	45
November	75	17	0	92
December	69	27	0	96
January 2012	52	35	0	87
February	51	20	0	71
March	42	37	0	79
April	73	21	0	94
May	50	17	0	67
June	60	17	0	77
Total	653	314	30	997

The following figure illustrates the percentage of monthly enrollments in Tiers I and II per Department for FYs 2004 through 2012.

**Referring Departments—Tiers I and II Combined
FY 2004 through FY 2012**

2. Confirmation of a presentation to the Judicial Officers and Minors Attorneys at Dependency Court.

Wraparound staff have not yet confirmed a meeting with Judicial Officers and attorneys but will convene these meetings within the next 2 months.

3. The average length of time between receipt of referrals for Wrap and enrollment into the program (per the 2008 annual report).

In December 2008, the enrollment procedure for Wraparound changed from the Interagency Screening Committees (ISC) accepting referrals to the Resource Management Process (RMP) functioning as the entry point. The majority of the Wraparound enrollments now pass through a team decision-making process, which allows for greater family participation and better tracking by the County. The accepted referrals to Wraparound are processed by the appropriate ISCs located in the eight Service Planning Areas (SPAs) in Los Angeles County. The ISCs distribute the referrals on a weekly basis to the Wraparound agencies that are contracted to serve children and their families in each SPA. Wraparound services are provided to children and their families on a "no-eject, no-reject basis." As the needs of the child and family change during the course of Wraparound enrollment, the Wraparound plan of care (POC) is updated to meet the needs and achieve newly-identified goals. The current average length of time between receipt of referrals for Wraparound and enrollment into the program is one week.
